4-digit PIN (write-in):_____ Date:_____

IDETC2025 Workshop Participant Questionnaire 1

For items 1-6, identify your degree of agreement with each statement by circling one answer.	Strongly Disagree	Disagree	Neither agree or disagree	Agree	Strongly Agree
1. It is likely that I have certain biases when making technical engineering decisions of which I am unaware of.	SD	D	N	A	SA
2. I have a difficult time noticing how certain unrecognized assumptions or preferences can influence my design decisions.	SD	D	N	A	SA
3. I tend to make design decisions quickly without much reflection on how my own perspectives might be influencing my design work.	SD	D	N	A	SA
4. I am confident in my ability to identify and address situations where my potential biases might affect design decisions.	SD	D	N	A	SA
5. I have a lot of exposure to people with different social, cultural, economic, professional identities (i.e., disability status, SES, race/ethnicity, gender identity, sexual orientation, etc).	SD	D	N	A	SA

Please rate the extent to which (circle one):	Not at all				Completely
6. Individuals can become aware of their implicit biases.	1	2	3	4	5
7. Individuals can learn to manage their implicit biases.	1	2	3	4	5
8. Individuals can eliminate their implicit biases.	1	2	3	4	5

For items 11-17, indicate how well it describes you by circling the appropriate letter on the scale at the top of the page: A, B, C, D, or E. Read each item carefully before responding. Answer as honestly as you can. Thank you	Does **not** describe me well				Describes me very well
9. I sometimes find it difficult to see things from the other person's point of view	A	B	C	D	E
10. I try to look at everybody's side of a disagreement before I make a decision.	A	B	C	D	E
11. I sometimes try to understand my friends better by imagining how things look from their perspective	A	B	C	D	E
12. If I'm sure I'm right about something, I don't waste much time listening to other people's arguments	A	B	C	D	E
13. I believe there are two sides to every question and try to look at them both	A	B	C	D	E
14. When I'm upset at someone, I usually try to "put myself in their shoes" for a while	A	B	C	D	E
15. Before criticizing somebody, I try to imagine how I would feel if I were in their place	A	B	C	D	E

Please give your completed survey to a facilitator. Thank you.

4-digit PIN (write-in):_____ Date:_____

IDETC2025 Workshop Participant Exit Survey

For items 1-6, identify your degree of agreement with each statement by circling one answer.	Strongly Disagree	Disagree	Neither agree or disagree	Agree	Strongly Agree
1. It is likely that I have certain biases when making technical engineering decisions of which I am unaware of.	SD	D	N	A	SA
2. I have a difficult time noticing how certain unrecognized assumptions or preferences can influence my design decisions	SD	D	N	A	SA
3. I tend to make design decisions quickly without much reflection on how my own perspectives might be influencing my design work.	SD	D	N	A	SA
4. Today's activities (i.e., the Gender-Design IAT and small group discussion) increased my awareness of my potential implicit biases.	SD	D	N	A	SA
5. After today, I feel more confident in my ability to identify and address situations where my potential biases could affect design decisions.	SD	D	N	A	SA
6. It was difficult talking openly about my own potential biases today.	SD	D	N	A	SA

7. How would you rate your facilitator's overall skill in *creating an open environment for discussion* today?

□ Very Poor □ Poor □ Fair □ Good □ Very Good

Rate the extent to which (circle one):	Not at all				Completely
8. Individuals can become aware of their implicit biases.	1	2	3	4	5
9. Individuals can learn to manage their implicit biases.	1	2	3	4	5
10. Individuals can eliminate their implicit biases.	1	2	3	4	5

For items 11-17, identify your degree of agreement with each statement by circling one answer.	Strongly Disagree	Disagree	Neither agree or disagree	Agree	Strongly Agree
11. The IAT made me think differently about how gender influences design cognition	SD	D	N	A	SA
12. I see value in using the IAT as a teaching or reflection tool with engineering students or colleagues	SD	D	N	A	SA
13. I would like to explore ways to improve or adapt the IAT for future use	SD	D	N	A	SA
14. The teaching demo effectively showed how to incorporate the IAT into a classroom setting or training setting	SD	D	N	A	SA

Please turn the questionnaire over and complete the questions on the back

4-digit PIN (write-in):_____ Date:_____

15. I gained new ideas for activities or discussions I could use in my own teaching or research	SD	D	N	A	SA
16. I plan to use the IAT (or a similar tool) in my classroom, lab, or research	SD	D	N	A	SA
17. I plan to seek out additional literature or resources to continue learning about bias in engineering design	SD	D	N	A	SA

18. One final insight or action item I'm taking away from this workshop:_____

_____

_____

19. Do you have any additional feedback/comments? _____

_____

_____

THANK YOU for completing these questions which help us evaluate educational activities.

4-digit PIN (write-in):_____ Date:_____

20. From the following list identify the **top three things** your facilitator did today to encourage or enhance group discussion. Please place a check mark (√) next to your **top three** selections. **The facilitator *encouraged or enhanced* group discussion when they**:

_____ Actively encouraged participants to speak
_____ Affirmed participant's contributions
_____ Allowed pauses or silence to give participants room to speak
_____ Allowed plenty of time for people to reflect and give responses
_____ Asked broad, open ended questions
_____ Clarified participant's comments
_____ Did not dominate discussion
_____ Followed up on people's comments with specific questions
_____ Invited different opinions
_____ Kept the conversation flowing
_____ Recognized when to change the conversation topic
_____ Referenced the Green article or other literature about this topic
_____ Refocused the conversation when we drifted
_____ Shared examples from his/her personal experience
_____ Spoke (asked questions and made comments) at appropriate times
_____ Started the session with some basic ground rules
_____ Summarized or paraphrased participant's comments
_____ Was careful not to interrupt
_____ Was respectful of others' opinions
_____ Used active listening (head nods, eye contact, etc)
_____ Used specific, direct questions to get participants talking
_____ NA: The Facilitator discouraged more than encouraged conversation

Please turn the questionnaire over and complete the questions on the back
